Customizing Fashion Eyewear

Sunglasses - Laser Engraved

Destined to become
the most sought after
Collegiate Logoed
product ever!
(non-clothing)

The laser engraving manufacturing division of Ideal Enterprises, LLC has evolved from a single retail location selling high-end fashion and sport sunglasses (Dior, Prada, Maui Jim, Costa) to the unprecedented ability to engrave on the lenses of fashion eyewear. Years of research and development has led to the implementation of a technologically advanced method of customizing sunglasses with our proprietary laser etching process. This unique process allows us to put YOUR company, team sport emblem, fraternity or sorority insignia, initials, company logo... virtually anything you would like on your sunglasses.

While our remarkable technology provides us with the ability to customize your eyewear, our years of experience and success in the high-end retail market (Ban Soleil Sunglass Boutiques) allows us to provide customers and business with choices of the latest trends in fashion eyewear. You now have access to the only customized Laser Engraved glasses in existence and with the choice of the latest styles and fashions.

CLC Participating Institutions

We have a variety of pre-designed logo's that represent the college teams mentioned above. If your school is not here, we can add it regardless of the size or classification at no additional charge.

We are the only provider of this service in the world. We are now manufacturing and shipping to 47 top Universities across to United States.
